KPTOP-DSR

Pantoprazole-40mg+Domperidone IP - 30 mg , SR capsule

- Offers high efficacy in improving the symptoms of GERD
- Exerts 24 hr action and prevents occurrence of acidity at night-time
- Superior therapeutic response than H2 receptor antagonist plus domperidone
- Completely cures 72.34% patients of esophagitis at 4 weeks

- GERD
- Erosive esophagitis
- Non ulcer dyspepsia

For

Day and Night

Control Acid peptic Disorders, Rely on

KPRAB-DSR

Rabeprazole sodium IP -20 mg+ Domperidone IP-30 mg capsules

RABEPRAZOLE:

- Consistent efficacy profile¹
- Low drug interaction potential¹
- Rapid and effective in relieving heartburn on day 1²
- Improves other GERD-related symptoms such as regurgitation and belching²

DOMPERIDONE:

- No extrapyramidal side effects³
- Alleviates satiation, bloating and nausea by accelerating gastric emptying³

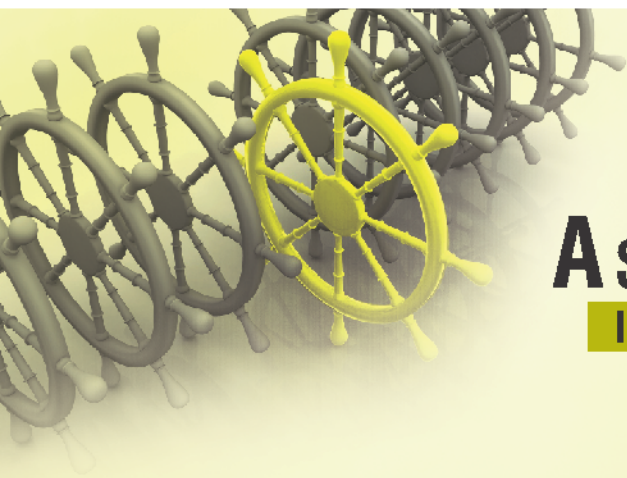

GERD

Dyspepsia

Post-operative nausea and vomiting

Nausea associated with acid peptic disorders

Chronic gastritis

A Step AHEAD

In Infection Eradication

KPCIP-500

Azithromycin IP- 500 mg

Tablet

- Broad spectrum of activity against Gram +ive, Gram -ive & atypical pathogens
- As effective as cefuroxime plus erythromycin in community-acquired pneumonia¹
- 3-day regimen of azithromycin is as effective as a 10-day regimen of co-amoxiclav in acute LRTIs²
- Maintains sustained pulmonary tissue concentrations higher than MICs for major respiratory pathogens³

KPZOLE-150

Fluconazole 150mg

TABLETS

Fluconazole...

- Shows good clinical and mycological efficacy
- Eradication rates with fluconazole were 76% compared to 66% for itraconazole in Acute Vaginal Candidiasis
[Eur J Obstet Gynecol 2003 Feb 10;106(2):193-7]
- Dramatically decreases signs and symptoms, 7 days after treatment initiation
[Eur J Obstet Gynecol 2003 Feb 10;106(2):193-7]
- 77% clinical cure rates with once weekly dosing in tinea pedis
[Clinical & Experimental Dermatology, Vol. 17, Issue 5, P.402-405]
- Single 150mg Fluconazole is as safe and effective as 7 days of intravaginal clotrimazole for Candida vaginitis
[American Journal of Obstetrics & Gynecology, Vol. 172, Issue 4, Part 1, April 1995, P.1263-1268]

Vaginal Candidiasis

Oral Thrush

Dermatomycosis

...Safe, Effective & Convenient

Fungal Infection can be tough to Eradicate...

KTROCONAZOLE-100

Itraconazole 100

Softgel Capsule

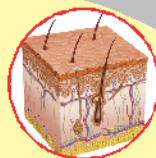

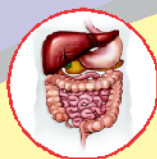

- ◆ Broad spectrum of action with efficacy against aspergillosis, Histoplasmosis, Candidiasis as well as fungal infection of toe nails and onychomycosis.
- ◆ A potent fungistatic that effective even in immuno compromised patients.
- ◆ Itraconazole was tolerated significantly better than conventional AMB and also showed advantages regarding efficacy
- ◆ Itraconazole is a useful and safe agent in empirical antifungal therapy

Aspergillosis
Cryptococcosis
Candidiasis
Mycosis
Sporotrchosis

Complete eradication of tough fungal infections

The perfect treatment for
bacterial infections

KPROXIME-250

Cefuroxime Axetil 250 mg

Tablets

- Beta lactamase stable, trusted & safe cephalosporin
- Higher Drug penetration in tissues & body fluids
- Efficacy better than other 3rd & 4th Generation
Injectable cephalosporins

Indicated In:

Uncomplicated Gonorrhoea

Post Surgical Infections

Pharyngitis & Tonsillitis

Otitis media & Sinusitis

KOREFLOX-TZ

Norfloxacin IP 400mg+Tinidazole IP 600mg Tablet

Tinidazole is active against protozoa and anaerobic bacterial infections against which norfloxacin is inactive. The combination of norfloxacin and tinidazole has an extended range of antimicrobial spectrum. This is effective in mixed gut infections, diarrhoea and dysentery.

Norfloxacin works by preventing the bacterial cells from dividing and repairing, there by killing the bacteria.
